ABOUT

This module uses the MyGLS SOAP API to get pre-generated GLS parcel label PDF to print, and see the tracking details in your stores back-office!

KEY FEATURES

- Create parcel labels without leaving Back Office!
- Customize and download parcel label.
- Parcel label stored on server in PDF format.
- Automatically add parcel tracking number to the order shipping.
- View shipping statuses in the back-office order page!
- If COD payment has been selected, it will automatically add the parameter to the label.
- Set default services: Guaranteed24Service (24H), ContactService (CS1), FlexDeliveryService (FDS), FlexDeliverySMSService (FSS), PreadviceService (SM2)
- Works with PWS Store GLS Parcelshop Selector and Order Export module.
- Labels will be store on the server under PS img directory

REQUIREMENTS

- Supported countries: Hungary, Croatia, Czech Republic, Romania, Slovakia, Slovenia
- Login credentials to MyGLS API (Test and Live) You must request it from GLS. (mygls.hu, mygls.hr, mygls.cz, mygls.ro, mygls.sk, mygls.si)
- Prestashop 1.7.6.5 or higher (maybe works on <1.7.6.5, but not tested)
- Enabled "soap" and "openssl" extension on server.
- On server the memory_limit:1024M and max_execution_time:600 values are preferred.
